The faculty went further and commended the action of the Common Council in appropriating funds to aid the league in carrying on its work, and urged all public-spirited citizens interested in the prevention and treatment of tuberculosis to become members of the league.

Meeting of Teachers.

A meeting of the Sussex Teachers' Association will be held on Friday and Saturday of this week in the auditorium of the Waverly High School. An address of welcome will be delivered by Judge West, and the response will be made by the Rev. W. W. Edwards, district superintendent. On Friday night a public meeting in the Interest of school work will be held, when addresses will be delivered by Professor Shewmake, State School Examiner: Mr. Binford, of litchmond, and others.

Handsome Showing.

It is expected that after all the premiums have been paid, and all the expenses incident to last week's Southside Virginia exhibit have been settled, which is now being done, the association will have left in hand some five or six hundred dollars. And this notwithstanding the fact that an admission price of only 10 cents was charged. This shows how well the fair was patronized.

CUNGRESS FOR AID

Milk Producers May Suffer Heavy Losses From Tubercular Tests of Cattle.

Washington, D. C., November 1,-Concress will be asked to pay a portion of the compensation proposed for the armers of Maryland and Virginia, whose cattle are tuberculin tested by the Washington Health Department, if plans of the milk producers of Virginia and Maryland bear fruit.

Legislators in both of those States, t was learned to-day, have declared

Legislators in both of those States, it was learned to-day, have declared themselves unwilling to support in their Legislatures a measure which will accrue mainly to the benefit of the citizens of the District.

Following an agreement between Representatives C. C. Carlin, representing the Virginia dealers, and John Thomas, of Maryland, president of the Producers' Association, by which the full rigor of the tuberculin test order would be lessened until the Legislatures of Maryland and Virginia met, the producers began to get busy with the State representatives in the Legislature to frame measures by which the States should compensate farmers for condemned cattle.

They found their Legislatures unwilling listeners to this proposition. The producers were told that not until the States concerned passed a tuberculin test law for its own benefit would it begin componsation for cows ordered killed by the District's inspectors.

It is believed that Mr. Carlin and Senator Martin, who was active in having the health department order modified, will head the movement to have Congress come to the rescue of the District milk consumer, and, incidentally, to protect the farmers of Maryland and Virginia from loss through diseased cows.
